VOLUME VII NUMBER 21 | LAKESIDE, SAN DIEGO COUNTY, CALIFORNA | FRIDAY DECEMBER 25, 1942 | FIVE CENTS PER COPY

School Attendance Shows Increase

By E. H. Carender

Attendance in the Lakeside Schools is the highest on record for the third month of the school year. Average daily attendance for November was 314, without the kindergarten. The same month last year registered 302. November, 1940, gave us an average of 235, which shows an increase in two years of 79. Because of this large percentage of increase an application was made a few months ago for $1,000 federal funds to assist in the purchase of additional necessary equipment required as a result of this increase; the increase being largely attributable to the defense work. The grant has recently been allowed, and the offer formally accepted by the school district. Bids for the new desks and other furniture and equipment will be called for very soon, and our school likely again will be adequately seated and equipped within a short time.

Annual Banquet Honors Grid Men

Grossmont football stars climaxed the gridiron season as guests of the Lakeside community at the 16th annual banquet for the high school team. The turkey dinner hosted by men of the community is always looked forward to in anticipation of much pleasure by the team. Clarence Foster was master of ceremonies.

The salute to the flag opened the program. Each player was introduced with a witty comment by Coach Jack Maslin and presented a clever humorous gift.

Members of the high school faculty in attendance were introduced and spoke briefly. Included were Coach Bill Beck, Vice Principal S. Smith, Fred Bunge, and evening high school principal Harold Balsiger, Student Body advisor, and Tom Gould of the athletic department.

Alumni, many of them former grid stars, were present. Several were fathers of the present football players.

The banquet was prepared by members of the Home department. Decorations on the tables carried out the football theme, with miniature players and footballs. Tall tapers lighted the decorations.

San Diego County Falls Behind In Per Capita Average

Assessed value of taxable property in San Diego county averaged $724 per capita for the current year, compared with a per capita of $739 for 1942. California Taxpayers' association stated this week, making public its study of value of property for local tax purposes in California counties.

The county ranked twentieth below the $1,034 average per capita assessed value of property in the state, the association found. The $1,034 per capita value throughout the state this year is $5 less than the $1,039 average for 1942.

Total assessed value of property in the county is $265,760,793 this year. Assessed value in the county is $265,198,000.

Property throughout the state is assessed at $7,679,695,000. Total value for 1941-42 was $7,350,926,000. Population is increasing faster than valuation.

Taxes levied against this property are for the counties, cities, schools and special districts, the association pointed out. Such local taxes come up for decision again in the spring and summer, but the local governments financed by these taxes are in action today, providing services, sometimes cutting expenditures to fit wartime conditions, in some places piling up surpluses to reduce tax demands against property next fall.

Latin American Newsmen See U. S. War Plants

Shown here examining a turbine in a General Electric plant, six Latin American newspapermen are now completing a tour of American war industries. Left to right: Gonzalo Baez Camargo, Mexico City; Jose Perez Moreno, Mexico City; Luis de Zavala, La Paz, Bolivia; Rafael Herrerias, Mexico City; Cesar Ortiz Tinoco, Mexico City, and Bernardo Ponce, Mexico City.

4-H Club Awards Presented To Two County Students

Miss Helene Davidson of Valley Center and Donald Ames of Barrett have received the All-Star award for the best 4-H projects in San Diego County. These two members were chosen by 4H leaders after very careful examination of the projects. This award to these two leading 4-H members was made at the Home Food Production conference at San Diego, December 5, states Bernarr J. Hall of the Farm Advisors Office.

Miss Davidson had a clothing project in which she made and renovated several garments during the year. Mr. Donald Ames had a poultry project in which he had a gross expense and income of over $160.00. Mr. Donald Lowry, Lemon Grove, Leo Cass of Lemon Grove and Eldon Simkins of Valley Center were close contestants in receiving the All-Star award. Miss Wilda James and Lucile Smith of Valley Center were close contestants for the Girls All-Star award. Miss Wilda James won the All-Star girl award in 1941-42.

Donald Ames of Barrett received the Kimber Cup for the best 4-H poultry project in San Diego County. His project included that of raising meat birds as well as laying hens. He is active in the 4-H Club, as well as the Smith-Hughes Agricultural projects at Grossmont, states Bernarr J. Hall of the Farm Advisors Office. His outstanding project gave him both the Kimber Cup as well as the All-Star award for San Diego County.

Mrs. Sweeny Passes

Funeral services for Mrs. Edith M. Swenny who passed away Sunday were held Wednesday morning in Benbough funeral parlors.

Mrs. Swenny was the sister of Mrs. Frederick B. Walker of Santee. She was well known to many Lakeside people.

Joins Army

John C. Alexander, nephew of Mr. and Mrs. George N. Ballou, Lakeside, with whom he has made his home for the past few years, joined the armed forces this month, and is stationed at Fort MacArthur.

Alexander is a native of North Carolina.

Buy Defense Bonds and Stamps.

License Fees For 1944 Absent From New Cards

When motor vehicle owners of National City receive their registration cards (white slips) from the Department of Motor Vehicles for 1943 the amount of the motor vehicle license fee due for the following year will NOT be shown on the card as in former years.

Due to conditions incidental to the gasoline and tire rationing programs, the Department finds it impossible to estimate the probable market value of motor vehicles for a period so far in advance.

Acting Registrar of Motor Vehicles, Thomas V. Maloney, announces the market value of the cars, upon which the fee is based, will be estimated at a later date, probably some time next Fall, when more is known concerning the availability of tire replacements. Vehicle owners will then be notified of the amounts they will be required to pay either through publicity channels or by postcard.

Maloney said the market value of any individual car next year probably would depend upon the condition of its tires and the chances for securing new tires or replacements.

San Diegans Buy Christy Ranch

Purchase of the Robert Christy ranch in Riverview Farms was made this week by Mr. and Mrs. Andrew Schicht of San Diego Kibby and Scott were the agents.

Erroneous Information

Contrary to a published report, the milk which is served at the grammar school under the AMA penny milk program is not furnished by the Dewey Buckel Dairy.

Truck Tire Date Set By ODT

SAN FRANCISCO—The first tire inspections under general order ODT No. 21, requiring all commercial motor vehicles to carry Certificates of War Necessity, must be made between November 15 and January 15, under an amendment to the order issued by the Office of Defense Transportation.

The order as originally issued would have made it necessary for operators affected by the order to take their vehicles in for tire inspection before November 15, when the order went into effect. The amendment makes an initial inspection mandatory before January 15.

County Assessor Asks Statements On Tax Property

One of the ways in which the war effort and local war industries is affecting county government is indicated by the fact that Crowell D. Eddy, County Assessor, is this year making an appeal for women who have had some office experience to volunteer for office work in taking 1943-44 tax assessments, because so many of the regular employees of the office and those who have in previous years done the statement-taking are now either in military service or working in war industries.

"In previous years," Eddy said, "it has been the custom to send deputies into the field to assist the taxpayer in making his statement. This year it is not going to be possible to secure the deputies, nor would it be advisable to use the rubber necessary for the transportation in making the house-to-house canvass.

"The final responsibility for the making of a tax statement rests with the taxpayer and not with the Assessor," Eddy pointed out. "We are therefore planning to take the taxpayers' statements by mail just so far as this can be done. To do this, we will have to have a greatly augmented office force in the Assessor's office from March 1 to July 1 to take care of this mail."

A school for training these deputies will be held beginning January 11, on Mondays, Wednesdays and Fridays from 1:30 to 4:30 p. m., for three weeks, in the Florence school, First and University avenues, in San Diego. The school will be under the auspices and a part of the adult education division of the city schools, with Walter L. Thatcher, vocational school principal, in charge. While the school will be open to both men and women, the Assessor is urging women who have had previous office experience but who cannot devote the long period of time required for defense work, to attend the school for the three weeks for the purpose of getting employment and helping the county during the three or four months of the assessment period.

The regular schedule of county salaries will apply for this employment, but those who attend the school will have to do so on their own time. From those who attend the school will be selected by Civil Service examination on February 1, the office group who will assist in carrying out the new method of assessment by mail.

Branch offices will also be es-

(Continued on Page 4)

First Aid Stations Get Medical Corps Bands

Medical Corps arm bands have arrived, according to Captain Mildred Whitaker of Area M. These are being distributed to all persons signed up to work in any one of the four First Aid stations in this area. Mrs. Whitaker may be contacted at the Woman's club house on Wednesday afternoons to distribute the arm bands to those entitled to wear them.

Grammar School Notes

FOOD PRODUCTION PROGRAM AT LAKESIDE UNION SCHOOL

Following the holidays, Tuesday, January 5, 12:30 to 1:30 p. m., County Agent Jean C. Miller and his office staff, Mr. Bernarr J. Hall and Miss Delphine Dawson, County Home Demonstration Agent, will conduct a program at Lakeside Union School. Mr. Hall will lead the older boys' section in a discussion of Victory Gardens and young livestock. Miss Dawson will have charge of a girls' group in the cafeteria, where the chief topic will be food preservation plus the Victory Garden.

Patsy Desmond is confined to her home with an attack of what appears to be rheumatic fever. The visiting committee of the Junior Red Cross, accompanied by their sponsor, Mrs. Maude E. Conant, visited Patsy Wednesday afternoon, and made a few other calls in the community.

Mrs. Pharris Swearengin is substituting this week for Mrs. Esther Jorgenson. Mrs. Jorgenson has gone to Santa Ana to spend the time until after the holidays with her husband, who has just recently returned from the Solomon Islands. He is at present relieving a quartermaster sergeant at Santa Ana, and hopes to get a furlough in a few days.

Tire Inspection Data Needed By January 31

SAN FRANCISCO.—America's passenger auto tires are about to have their ills diagnosed frequently and with great care as part of the nation's rubber conservation plan.

The first inspection must be completed before January 31, 1943, under mileage rationing which goes into effect Dec. 1.

Details of the inspection to be given each tire every four months include:

1. Check of ration book and tire inspection record.
2. Listing of serial numbers of all tires on car.
3. Check for correct air pressure in each tire.
4. Recording of speedometer mileage reading on tire inspection record.
5. Check for bent rims and out-of-true wheels.
6. Check for cuts or breaks in tire sidewalls and treads.
7. Check general condition of tires for cuts, breaks, and evidence of wear from badly aligned wheels, faulty brakes, unbalanced wheels, camber alignment, and excessive wear of kingpins, bushings and wheel bearings.
8. Obtain information from driver as to whether any tire has been injured inside, and not repaired.

Inspection Fee Set

If tires pass this visual inspection, the inspector signs the inspection record and the car may continue in operation.

Where visual inspection reveals probable serious tire ailments, the inspectors will require removal of the casings for closer scrutiny, and will prescribe the necessary repairs which must be made before inspection approval is given. The completed inspection report will be required as a basis for renewal of gasoline rations.

Woman's Club Burns Note; Enjoys Xmas Party And Program

At an impressive ceremony at the Lakeside Woman's club, Mrs. John Andrew was accorded the honor of burning the club's building note of $250.00. Mrs. Andrew, ways and means chairman, has been one of the most active members of the club to provide means of reducing the note to the final payment. The announcement was made by Mrs. George Langworthy, treasurer, and then presented to Mrs. Andrew.

The note was contracted two years ago for the repair of the kitchen at the club house.

The meeting on Thursday afternoon was of two fold importance. Mrs. M. C. Woodward and Mrs. F. L. Lake served as hostesses for the annual Christmas party. A beautifully arranged program was presented before the members of the club.

"Gesu Bambino" a piano solo was played by Mrs. Maxine Parrish as the opening number.

"When Honey Sings an Old Time Song' by Joseph B. Carey was sung by Mrs. Harry Koehler and accompanied by Mrs. Parrish.

A group of three songs was rendered in duet by Mrs. Hale Whitaker and Mrs. Koehler, namely Silent Night, White Christmas and Johnny Doughboy. They were accompanied by Mrs. Parrish.

Mrs. John Andrew gave a reading, "Dora Dumb Goes Christmas Shopping.'

Two readings were presented by Mrs. George Miller: "Birth of a King" and "Day After Christmas."

Distribution of exchange gifts was made from a handsomely decorated Christmas tree.

Refreshments were served by the hostesses at the close of the afternoon.

C. of C. Elects New Officers For Year

Election of officers for the coming year was held by the Chamber of Commerce at their regular monthly dinner meeting on Monday evening at the Woman's club house. Pharris Swearengin was elected president; Harold P. Laws, vice president; Noel Sands, secretary; and Harvey Huffman, treasurer.

This marks the last meeting to be presided over by William Wolin. President elect Swearengin takes over his duties at the first meeting of the new year, January 11, 1943.

Dinner was served under the auspices of the Ladies Aid of the Community Church with Mrs. A. G. Sly as chairman.

Annual Christmas Program At School

Lakeside grammar school children have made extensive plans for the Christmas program to be given at the school auditorium Wednesday evening, Dec. 23. "No Chimney Too Small" is the play to be presented. Mrs. Muriel Miller is in charge of the program.

The boys and girls choruses will present Christmas carols. The girls will be costumed as angels and the boys will wear choir robes.

No charge will be made for the program which will begin at 7:30 p.m.

Each room will hold its annual Christmas party on the last day of school, Dec. 23 with an exchange of gifts.

Christmas Dance

A committee of three for the Modern Woodman Christmas dance, Dec. 21, promise a good time to the public. The recreation hall will be the center of fun, state Bob Buckel, Andy Nollet, and Lloyd Foster.

REDEEMING GRACE

Strolling across the San Diego River bridge, at Lakeside, in the late evening of January 3rd, my dear Wife's birthday, the following bit of verse came to me, and is reverently inscribed to the sacred memory of her beautiful life.

Weary and sad, I wandered alone at eventide,
And gazed on the stars above,
When I heard a voice from out the sky,
It was borne on the wings of love.

It was gentle, and low and soft and sweet,
And as clear as the falling dew,
That gives its life to the drooping flowers,
That brighten the woodland through.

I paused to listen, and lo, it spoke
Of that beautiful world on high,
And I caught a vision of faith and hope,
And of the souls that never die.

Then I cried O Lord, grant me that faith,
That leads to that better life,
Where all is happiness, peace and love,
Undimmed by heart-ache, war and strife.

Then again I heard that gentle voice,
In accents sweet and low,
Come, take your cross and follow me,
If happiness you would know.

The road you tread, I too have trod,
In ignominy, sorrow and pain,
I paid your debt on Calvary's cross,
And bore your guilt and shame.

My life was given for you my child,
My grace is full and free,
Redeeming power is in my blood,
So freely shed for thee.

1-3-1942. —FRANCIS M. De WEESE.

WAR PRODUCTION BOARD CITES CHANGED ORDERS, RESTRICTIONS

Following is a summary of War Production Board orders issued recently:

Release for sale to consumers of new vacuum cleaners frozen in the hands of retailers and wholesale distributors since Oct. 24, has been granted.

Moving to assure an adequate supply of work garments for women going into war work, WPB has imposed strict control over the purchase and use of fabrics needed for this type of clothing.

Export of American petroleum coke has been prohibited without authorization by WPB.

The Ray Oil Burner Company, San Francisco, was penalized for violation of limitation order L-74.

Monthly quotas on deliveries of some canned fruits, vegetables and fruit and vegetable juices by wholesalers to their customers has been established for the first time. Deliveries to retail groceries, restaurants, bakeries and other persons who buy canned goods in wholesale quantities are affected.

Charged with violating conservation order L-41, A. E. Adams, operator of a tourist camp at Hayward, California, was penalized by a suspension order.

The WPB has acted to assure the Armed Forces and Lend Lease an adequate supply of canned citrus fruit and juices during the coming year by directing canners to set aside various percentages of their 1942-43 pack of grapefruit segments, grapefruit juice, orange juice, and blended orange and grapefruit juice combination.

Gold mines which are being closed, and whose machinery was frozen on November 19, are required to file lists of frozen machinery with WPB Board on or before January 18, 1943.

Manufacture and use of tin oxide has been completely forbidden.

WPB has prohibited dairy producers from distributing whipping cream, or other heavy cream, to household consumers, retailers, restaurants, institutions, and others. Coffee cream is not affected. companies are required by order L-88 to secure permission for the sale of scrap and re-rolling rail in excess of 10 tons a month, it was pointed out by WPB.

As a result of diversion of greater quantities of repair type sole leather to Lend-Lease for military needs WPB directed sole leather tanners and converters to set aside more manufacturer's sole leather "bends," normally used for new shoes, for the repair of civilian footwear.

Importation of sesame seed by land, air, or inland waterway without the specific authorization of the Director General of Operations has been prohibited in order to preserve crushing facilities on the west coast for other programs.

* * * *

The quota of new passenger automobiles for rationing in December has been set at 3,585 for five western states it was announced by the regional Office of Price Administration. These do not include the state reserves.

Nationally, the quota was 28,900.

In New York state, Navy engineers have authorized erection of 2,500,000 square feet of roof deck built of poured gypsum in order to save metal and lumber, scarce strategic materials. A tongued and grooved flooring board gypsum has also been developed, saving wood.

Dogs For Defense Again Advocated

Search for more dog-soldiers to serve with the U. S. Army on the battlefields of the world was intensified this week by Dogs for Defense, Inc., which has been asked by the government to furnish canine-volunteers.

Eleven dogs were accepted by Lois Brundred and Joan R. Michler, sub-regional directors for Dogs for Defense, Inc., in San Diego and Imperial counties at Balboa Stadium, San Diego, last Friday.

The regular Friday induction tests will be held hereafter from 10 a.m. until 1 p.m., and owners of all dogs one to five years old, measuring 18 in. to the shoulder, either male or female, are urged to bring their dogs to the Stadium for the try-outs. Further information as to. brands can be obtained by calling Miss S. C. Brock, at Jackson 7394, San Diego, or Miss Brundred and Miss Michler at Chula Vista 46. Contributions to the work also may be sent to Dogs for Defense, Box 786, Chula Vista.

Arrangements are now nearly completed for specified induction points throughout San Diego and Imperial counties, and the times and places of which will be announced shortly.

Runner-up for high honors at last Friday's Stadium honors was "Mike", a hard-hitting, alert German Shepherd, the gift of Mrs. Joe Alves, of 3436 Allman street, to the Army. Mike was picked up as a stray by the San Diego Humane society, and his owners directed that he should go into the service. Not having a son to give to Uncle Sam, Mr. and Mrs. J. E. Penberthy, 5924 Mission Valley road, donated "Jerry" their beloved four-year-old airedale.

Others who donated their dogs Friday included: George Russell, Jackley and Bertha Moreno, Mrs. A. E. Hodgeman, Mrs. Donald Saul, C. N. Tyner, Mrs. E. N. Naylor, Leo Pennington, R. P. Connery and Mr. and Mrs. J. Bryant.

The Jap 2-man submarine which was captured intact the day after the sneak attack on Pearl Harbor will be exhibited in San Diego Saturday, Dec. 26. The midget craft is pictured as it started on a nation-wide tour after being reconditioned by the Navy.

Telephone Company Asks Preference For Service Men

Release of long distance telephone circuits by civilians who find other means of conveying their Christmas greetings will make it possible for more service men to exchange Yuletide messages with their families.

C. L. Adams, manager of the Southern California Telephone Company, made that statement, reporting that according to present indications and on the basis of last year's experience a very large percentage of the calls to be placed during the holidays will be from service men.

"But notwithstanding an appreciable increase in the number of circuits as a result of last year's vigorous construction campaign, there are insufficient lines to handle the Christmas and New Year's calls of both service men and civilians," said the manager.

"Disappointment over the failure to complete calls will be the lot of many", he said; "but more service men can be served if others, who can send their greetings by means other than the telephone, will avoid calling."

The manager said that there are about 200 long distance circuits to the east from Southern California to serve the thousands who wish to telephone greetings. These circuits are more than sufficient to handle normal business and social calls, but, obviously, the manager stated, they are inadequate to transmit essential calls and all of the greeting calls that will be offered.

Furthermore, he said, there will be many calls to villages and farm communities all over the country. Circuits to those places will be snowed under, with the result that calls will back up at switching centers.

The manager stated that the public's understanding of the telephone problem and its willingness to cooperate is enheartening to all telephone workers.

Beekeepers Meet At County Farm Advisor's Office

Beekeepers in San Diego county were requested to melt down 20% of their old beeswax frames, stated J. E. Eckert, Associate Apiary Culturist with the University of California. The shortage of wax necessitates this program to fill the wax needs of beeswax. Eckert stated that bees are essential in both the victory garden and fruit orchards for good pollination.

The beekeepers Association was called together by the Farm Advisors Office, states Bernarr J. Hall. Price ceiling and its interpretations were presented by Attorney Wright of the O.P.A. The base price for No. 1 honey is approximately twelve cents, stated Wright. The ceiling of twelve cents is on extracted (processed) honey. Raw honey in the frames has not been placed under the ceiling regulations.

Beekeepers will be eligible for sugar in feeding the bees, stated the apiary culturist. The amount of sugar depends upon the quarter of the year in which the beekeepers request sugar. Fifteen pounds are allowed per hive over a period of a year.

Eckert also outlined methods in which additional beeswax could be produced by the bees. This method has been tried out by the apiary culturist, as well as commercial beekeepers, and it has been proven satisfactory in increasing wax production per hive. Outlines of this method for wax increase is available at the Farm Advisors Office, states Bernarr J. Hall. Beekeepers not attending the conference should consider the wax increase program in the war emergency.

Jap "Suicide" Sub To Be Exhibited In San Diego

The two-man Japanese "suicide" submarine captured by the American forces a few hours after the Pearl Harbor attack will be on exhibition in San Diego, Saturday, Dec. 26. Everyone is invited to inspect this prized trophy.

Arrangements for this extraordinary event were made by the San Diego County War Savings Committee as part of its campaign to increase the sale of war bonds and stamps. There will be no direct admission charge to see this historic relic, as it will be on public display, but those buying war bonds or stamps will be privileged to have a close-up view of the interior.

The submersible is touring the country on a tractor-trailer, under direction of the treasury department, and has already been seen by hundreds of thousands of Californians. It was brought to Mare Island on the deck of a freighter and then was refitted by the Navy with facsimiles of batteries, gauges, dials and controls that had been taken out at Pearl Harbor for study by Navy experts.

Those who buy war stamps or bonds and look into the interior of the sub will also see two uniformed "Japs" at their battle stations, ready to launch the two torpedoes carried by the midget craft. As the only entrance is a 16-inch hatch in the conning tower, 30 glass ports have been cut on both sides of the hull to permit a close view of the workings.

Length of the sub is 81 feet, and its weight 20 tons.

The sub is scheduled to be exhibited at Oceanside Dec. 23, and at the Consolidated Aircraft Corporation Dec. 24. It will have a "holiday" Dec. 25, and then will be readied for public inspection all day on the 26th at Sixth Avenue and Spruce Street.

County Assessor Asks Statements On Tax Property

(Continued from Page One)
tablished throughout the county which will be open one or two days a week in each locality during the months of March and April. "This is necessary," Eddy explained, "to give opportunity for veterans to make their statements and for newcomers who have not previously made a tax statement in San Diego County and whose address we therefore will not have in the Assessor's office." The branch offices and their location and days on which they will be open are as follows:

Alpine—Alpine Community Library, Women's Club House, Monday.

El Cajon—City Hall, Tuesday and Wednesday.

"I believe that all loyal taxpayers will cooperate with the Assessor's office as a patriotic duty in the giving in of their assessment either by mail or by coming to these branch offices when they understand what their responsibility is." At the close of the season ,the Assessor will check up on all residences, both in the rural areas and in the city areas, and a demand will be made on every residence from which a statement has not been received. If this demand is not complied with, then it will be necessary for the Assessor to put on an arbitrary assessment. Deputies will be sent to the places of business as in previous years as the statements from business houses are usually too complicated to be easily handdled by mail.

Car Sharing Explained By OPA Director

Americans have been nomads since the first "gasoline buggy" wheezed out of a reformed wagon works. Ninety per cent of all peacetime travel was by private car and in 1940 the motorist rolled up approximately 298 billion miles, compared with 73 billion for all other forms of transportation.

The extent of our dependence on individual transportation may be judged from these facts—54,000 communities, or 43 per cent of the total, rely entirely on highway travel to maintain their daily existence, while some 2,300 cities and towns with a total population of 12,500,000 persons depend entirely on the automobile to transport passengers. And motor vehicles are the only forms of conveyance available to 18,000,000 non-farm residents in rural areas.

The advent of war underlined the fact that 82 per cent of Americans go to work by automobile. Out of ten typical industrial workers, seven step on the accelerator every morning, two dash to the bus, the street car, the railway or the subway and one makes it on "shank's mare."

Here are some revealing examples—At one big aircraft factory 92 per cent of the 50,000 workers get to the job by car. Ninety-five per cent of the 7,000 employees of a naval ordnance plant depend on their automobiles. At one navy yard, some 3,000 workers drive 60 to 85 miles round-trip every day. In 749 war plants in Michigan 434,600 workers have no other way to get to work except by car. And, in this eleven months of war, the inescapable point is that those men must get to work.

Our war workers must continue to drive to work, but it will take careful planning to keep them driving. Japan now holds the lands from which we got more than 90 per cent of our rubber supply, and we must limp along on short rubber rations. Even when the synthetic rubber program bears fruit, most of its product may be needed by the armed forces. The Atlantic seaboard suffers from a gasoline shortage caused by a lack of water-borne transportation. Automobiles are no longer being manufactured—more than 2,000,000 of them have disappeared from the road since 1941. And, as time goes on, the possibility of a shortage of automobile repair parts must be reckoned with.

The retort that "I'll take the bus when my car folds up" is no answer. Already buses and street cars in dozens of war centers are groaning under 100 per cent capacity loads. Plants that once made rolling stock for urban transportation are now busy making tanks and planes. Only a few metropolitan cities with rapid transit systems can absorb any considerable increase in passengers.

Car sharing offers the only real solution to the problem of keeping our 27,000,000 automobiles on the road while saving rubber and gasoline. Under the car-sharing program, now an integral part of the national mileage rationing program, at least four ride where often only one rode before. Carsharing enables four tires to do what twelve or sixteen did before, uses one gallon of gas to cover the miles that took three or four gallons before, and reduces wear on automobiles and automobile parts by three-fourths or four-fifths.

Car-sharing is not a patriotic combination of the "give-a-lift" and "hitch-hiking" customs. It is an orderly, systematic, day-to-day plan for carrying the maximum number of passengers in the minimum number of cars by a careful synchronization of drivers and riders schedules and routes to and from work and to and from shopping centers.

Two types of car sharing clubs are acceptable to the Government agencies concerned with the transportation problem. If an individual is connected with a public utility, transportation, communications, agricultural, extractive, industrial, military or naval establishment employing more than 100 persons he is advised to join their organized transportation plan. If he is not, he is urged to form a club on a neighborhood or block basis.

Membership in either type of club does not automatically entitle a motorist to a supplemental gas ration, especially if he and his fellow-riders are able to negotiate the distance on an "A" card. But no motorist can obtain a "B" card unless he belongs to a club of at least four members or can demonstrate that it is impossible to form such a club. "C" cards, incidentally, are reserved for motorists who travel more than 470 occupational miles a month and are in one of the "preferred" categories.

The motorist who joins with his fellows to form a car sharing club has recognized that his car is an irreplaceable cog in his country's wartime transportation network, and he its custodian.

CARTOON SPORT NEWS

This year the holiday season finds millions of our fellow-citizens in the armed forces, millions more in the factories and shipyards who serve those gallant men at the front.

There is no finer Christmas gift that can be sent to our fighting forces than the greatest output possible of planes, ships, and supplies, bringing Victory closer.

The Long Distance lines of the Nation are serving this gigantic program by handling a tremendous number of calls, the greatest in telephone history.

Big as it is, the network of Long Distance lines has no margins this year for purely personal calls; nor can more lines be constructed. The copper and other materials that would require are needed still more by our fighting men.

In recent months, your co-operation in keeping Long Distance calls to the *essential* has helped to keep these lines clear for war calls. We ask now that you continue this assistance, over the holidays especially. To war-busy centers, please make only calls that are *necessary*.

We appreciate your friendly help and understanding.

"The Victory Loan Drive is on—will you invest in our National security through the new Victory Loan?"

SOUTHERN CALIFORNIA TELEPHONE COMPANY

"Couldn't get along without Electricity"
says D. W. Buckel, Lakeside Dairyman
"YEARS ago we ran a dairy farm without Electricity, but I don't see how we ever did it, nor do I see how anyone can possibly operate without Electricity, now. We use it every way we can, and we haven't enough words of praise for our Electrical helpers."
Buckel's Dairy is a model of convenience, safety and sanitation, typical of the best San Diego County dairies. They milk about 100 cows daily, and the plant equipment includes two Electrically driven ice machines, Electric circulation pump, Electric compressor operating milkers, fly electrocutors, Electric fans, yard lights, etc. And in the residence, Mrs. Buckel has an Electric range, hot water heater, refrigerator, washing machine, radio, and many small Electrical units.
Away back in 1914 D. W. Buckel started in the Dairy business in Imperial Valley. In 1937 he moved to Lakeside, and four years ago admitted his sons Bob and Eugene into partnership, and built his present plant--which has been used as a model by a number of other Southern California dairymen. The herd is chiefly pure-bred Guernseys, headed by the registered bull "Lustre of Arizona Farms", who has sired 60 of the high producing heifers at the ranch.

A Christmas Menu in Red and Green

Here's an appropriate color scheme in the menu itself. Examine it carefully and you'll see how it emphasizes the Christmas Spirit.

Christmas Fruit Cocktail

Roast Leg of Lamb garnished with mint and Cherries, mint jelly, mashed potatoes, gravy, buttered whole beets, broccoli. Enriched bread, rolls, butter. Cabbage ring with whole cranberry sauce, date walnut torte, whipped cream, coffee, tea, milk.

★ THIS WEEK'S ★
VICTORY DISH

ROAST LEG OF LAMB

Leg of Lamb, about 5 lbs. Salt and pepper.

Method: Do not have the thin paper-like covering (known as the "fell") removed from the leg of lamb. Sprinkle lamb with salt and pepper and place, skin side down and cut surface up, on a rack in an open roasting pan. Make an incision and insert a roast meat thermometer so that the bulb reaches the fleshiest part of the muscle. Do not allow bulb to rest on either bone or fat. When the thermometer registers 175°F., the lamb is medium rare, while at 180° F. it is well done. If a thermometer is not used the length of time for cooking may be determined from the information given below.

Low temperature method 250°F.—1 hr. to the pound. 300° F.—35 min. to the pound.

Alpine Activities

BY MRS. H. L. FLEGAL

Mr. and Mrs. Harry T. Gantt and babe have moved to Brawley after several months stay with Mrs. Gannt's parents, Mr. and Mrs. Sturdivant.

Through the columns of our local paper the members of the Women's club wish to extend Holiday greetings to Mrs. Julia E. Dalton. Mrs. P. G. Groves, Mrs. Robt. Walter, Mrs. Janet Adams, and Mrs. Harry Bedwell, who have recently moved from our midst.

Mr. and Mrs. Robert Walter, Alpine residents for the past few years, who are employed at the Rohr Air Plant, and now living in San Diego, were Alpine callers on Sunday.

Mr. and Mrs. Walter Guden, from East Hampton, N. Y., who visited a number of days with Mr. and Mrs. James Ansell, are now on their way east again. Mrs. Gulden is Mr. Ansell's sister.

The Cypress Cottage at Clark's is now occupied indefinitely by Mr. and Mrs. M. O'Connel from Chula Vista.

A few cottages are now unoccupied in Alpine vicinity, probably due to the rationing of gasoline.

Mrs. Lee Starr Adams from Los Angeles was a guest for the afternoon at Mrs. Flegal's on Monday.

School has been dismissed at State College for three weeks in order for many of the students to earn some money through the holiday rush, thereby helping the merchants. This gives Mrs. Hilda Walker a chance to be home awhile, but will she rest?

The writer accompanied Miss Delphine Dawson to a Home Department meeting at Mountain Empire on Tuesday. The ladies there have a small clubhouse on the Sawday ranch, formerly owned by Jackie Coogan. There were 25 ladies present. The subject was "Food for Body Resistance from Taking Cold." One of the principal speakers was Lt. Colonel Dameron, who is a M. D. from Camp Lockett.

REPLACE MORE OFTEN

A general rule in connection with the use of motor car chassis lubricants that the car owner may follow with profit is: The lighter the lubricant, the more often it should be checked and replenished, states the Service Department of the National Automobile Club. Cars using fluid greases in parts which formerly took heavierbodied lubricants prove this to be the case. But they are better lubricated by the lighter compounds.

For Sale—Good Racking Black saddle horse. Good furniture for living, dining and bedroom. Call to see after Dec. 26th. Mrs. A. A. Carlstrom, So. Grade Road, 2½ miles S. W. of Alpine.

NOTICE OF INTENTION TO VACATE AND ABANDON PORTION OF THAT CERTAIN COUNTY HIGHWAY KNOWN AS OLD SURVEY NO. 87.

PUBLIC NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of San Diego, State of California, adopted a resolution on November 16, 1942, declaring its intention to vacate and abandon all that portion of that certain County Highway known as Old Survey No. 87, situated in the S½ of the SW¼ of section 28, and the N½ of the NW¼ of section 33, township 14 south range 1 East, S. B. B. & M., from the northwesterly prolongation of the southwesterly right of way line of that certain County Highway known as Road Survey No. 918, southerly to the southerly line of the said N½ of the NW¼ of section 33:

EXCEPTING any portion thereof lying within the right of way of that certain County Highway known as Road Survey No. 826.

The Board of Supervisors has fixed Monday, the 28th day of December, 1942, at the hour of 11:00 o'clock A. M. of said day at the chamber of said Board, room 310, San Diego City and County Administration Building, Civic Center, San Diego, California as the time and place for a hearing on said resolution to vacate and abandon said County Highway.

YOU ARE HEREBY NOTIFIED to appear at the time and place fixed for said hearing and show cause, if any you have, why said portion of said County Highway should not be vacated and abandoned.

For further particulars reference is hereby made to said resolution of Intention on file in the office of the Clerk of the Board of Supervisors, Room 308, San Diego City and County Administration Building, Civic Center, San Diego, California.

By order of the Board of Supervisors of the County of San Diego, State of California dated November 16, 1942.

J. B. McLEES,
County Clerk and ex officio Clerk of the Board of Supervisors.
By M. GIBIAN, Deputy.

Pub. Dec. 4-11-18

Farm Labor Plan Being Made For Peak Seasons

Plans being made by the War Manpower Commission in collaboration with the Department of Agriculture to provide labor for record agricultural production in 1943 call for a highly mobile army of experienced full-time farm workers aided by corps of local volunteers to meet peak-season demands, WMC Chairman Paul V. McNutt has announced.

"The program will be worked out in detail during the winter months and launched as soon as spring planting begins," McNutt said.

The Program Includes

1. Full-time continuous employment of mobile groups of experienced farm workers, transported at government expense from one area to another as the crops mature.
2. Relaxation of legal barriers, which now restrict the complete mobility of labor between states.
3. Transfer of experienced farm operators and workers now on sub-standard lands to productive area of labor demand.
4. Expansion of the U. S. Employment Service farm placement machinery for direction of farm labor movement and full scale mobilization of local volunteer groups.
5. Adjustment of farm wages to bring the income of farm workers more nearly into line with those of industrial workers.
6. A farm labor training and management program, now being developed by the Department of Agriculture and the U. S. Office of Education. This will aid farmers to make the most effective use of the fewer number of experienced workers through expert supervision, training and upgrading.

School News

by BILLIE JEAN EMMONS

Carr and Martha White are staying in San Diego with their mother for a while. We hope that they return soon.

Betty and Billy Davis have entered the Alpine school from Texas. We hope they don't leave us for quite a while.

The children of the Alpine school in all eight grades are getting a school Christmas program ready. There will be singing, a play or two, and other kinds of entertainment.

Builders Program Under Advisement

A three-point program for builders and lending institutions continues to be the outlet for residential housing and lending activities in the Southern California district, according to Wilson G. Bingham, Southern California District director, Federal Housing Administration.

"1. New construction for the purpose of using approximately 3,800 residential allocations made available for Preference Ratings in the Southern California Defense Areas.

"2. Conversion of existing, single-family residential structures into multi-family structures.

"3. Repairs and remodeling of existing property without change of design.

"Under item (1) an all out effort is being made by many builders operating in various Southern California District areas, to adopt their plans for new housing construction to meet the recently issued standards of design and material consumption as formulated by the War Production Board. Several volume projects involving up to 100 or more residential units are in preparation.

"Although new construction continues as the predominant interest, both with lending institutions and builders, nevertheless, increased interest has developed in the program for remodeling or converting of existing properties, particularly where a large, single-family residence exists in a well-located, desirable, mature residential district. Often such properties are ideal for conversion into duplex or tri-plex units for rental to war workers. Generous FHA-insured loans, up to $5,000 ,for long terms, are available for this activity.

"Repairs under Title I continue with considerable activity. Maintenance of existing properties in sound condition and essential repairs are permitted without authority of the War Production Board, provided there is no structural change of design of the property. FHA -insured loans, up to $2,500 are available for this type activities.

Women's Activities: Social and Personal

Mainly About People

By Lorena Sands

Dec. 18, 1942.

Dear Eleanor:

Just try to get ahold of some of the feminine information bureaus of Lakeside! Can't be done. They're all out Christmas shopping. So bear with. . . . news is just about as scarce as gas these days.

Speakin' of gas. . . . Mr. and Mrs. George E. Curtis have been hoofing it around here and saving their coupons for a big fling at Christmas. . . . They are heading for Eagle Rock (in the L. A. neighborhood) . . Mrs. C. expects to remain for awhile.

And another Christmas trip under way now is one taken by Mrs. Cody Bell. . . . She is holding a ticket for Texas. . . . to visit her mother and sister.

Mary, Allen and Ormand Mitchell surely will be seen walkin' to the better circles of town after their trip to Earlimart. . . . They're combining business and pleasure. . . . Will use the guest towels at the Ormand Bryans over the holidays.

For a Christmas dinner Mr. and Mrs. John T. Body and baby have been bid to the home of Mr. and Mrs. Henry Valentine of La Mesa.

For the past four days Mrs. Willis Meyer has entertained a house guest, Mrs. Elizabeth Tiger of Long Beach.

Violet Arnell has had a trip to the hospital and just returned. . . . Her mother, Mrs. Laura Kerns of Chula Vista is here helping her recoup.

Harvey and Pat Huffman are moving up a block on River st. . . . into their own little house with a garden. . . . and their cottage at the Mitchell court was grabbed quick, like that, by Hugh and Beverly Kruger for their nest.

Mrs. Caroline Keck expects to spend Christmas at several places during the day. . . . She will be the guest of Miss Jane Reynolds of Alpine and then dine with her son and daughter, Mr. and Mrs. Tom Keck of Coronado. . . Also be made welcome at the home of a daughter and son, Mr. and Mrs. Alfred Clark, also of Coronado.

Thumbs up until Victory,

V...-

LORENA.

Church Party

A luncheon with the Christmas theme and an exchange of gifts was enjoyed by members and friends of the Methodist church of Santee Thursday noon at the home of Mrs. John Cameron. Brother Rector of the church organiaztion was present.

Blake-Price Wedding At San Diego Church

Mission Hills Congregational church will be the setting for the beautiful rites which will unite in marriage Miss Margaret Ann Price, daughter of Mr. and Mrs. Charles C. Price of Lakeside Farms and Jack Blake, U. S. A., son of Mr. and Mrs. George J. Blake of Los Angeles, on Sunday, December 20, at 2:30 o'clock.

The Reverend John C. Wiley will read the service by candlelight. Red poinsettias will decorate the altar.

Leonard Marganthaler will sing. Musical arrangements chosen for the wedding are Lord's Prayer and Ich Liebe Dich by Gregg.

The bride, who will be given in marriage by her father, has chosen a white sation bridal gown with a gathered bodice and sweeping train. A full skirt is gathered to a long waist. Her finger tip veil of illusion net is trimmed in lace. She will carry a white orchid on a white prayer book.

Attendants' Gowns

Miss Eleanor Blake, sister of Mr. Blake, will attend the bride as maid of honor, and bridesmaids will be Misses Betty Lou Zumwalt and Helen Thomas. Their gowns will be fashioned in white taffeta and they will carry red poinsettias. Little Kay Blair will be flower girl and wear a white frock.

Leonard Marganthaler will be best man.

Two hundred invitations have been sent for the wedding. Mr. and Mrs. George J. Blake, Los Angeles, parents of the groom will attend.

Reception Follows

A reception and wedding party will follow for close friends and relatives of the couple at the home of Mr. and Mrs. D. C. Hazelrigg in San Diego, aunt and uncle of the bride.

After a short honeymoon the bride and groom will live in Riverside until the opening of next semester at State College where Miss Price is in attendance. Mr. Blake is stationed at March Field.

* * *

Mrs. Dwyer Elected District Vice President

At the recent District Federation of Women's Clubs convention, Mrs. Edward Dwyer, county president and member of the Lakeside club, was elected district vice president. Her sister, Mrs. George King of Brawley, was named auditor at the same election.

* * *

Christmas Party For Club Members

Hostess to the Trix club for their Christmas party was Mrs. Rene Fair. Members of the club met at her home Friday for several rounds of bridge and an exchange of gifts.

* * *

Baby Boy Arrives

Dr. and Mrs. Worth Martin, formerly of Lakeside and now residing in San Diego are receiving congratulations upon the arrival of a baby boy. The newcomer weighed 5 pounds and 3 ounces and put in his appearance Sunday morning, Dec. 13, at the Mercy hospital. He has been named Steven Alan.

* * *

Birthday Trio

Three birthdays were marked on the calendar for last Sunday at the home of Mr. and Mrs. Otis Barker. Earl Barker, their son, Earl Smith, the Barkers brother-in-law, and William Bledso, a friend from El Cajon were honored at dinner and shared in the beautifully decorated birthday cake.

Other guests included Mr. and Mrs. Lee White and son; and Frances Stammond. El Cajon, a school and Naval friend of Earl Barker.

* * *

Adolph, Benito and Hirohito —the three blind mice. Make them run with ten percent of your income in War Bon every pay day.

High School Highlights

By Fae

Last Saturday evening Clair Clevenger, Clarabella Huffman, Ludy Lewis and Pat Huffman attended a dance in El Cajon. From what I hear corn (corny stories) was thrown thick and fast.

Isabelle McCormick, Clarabelle Huffman and Jackie New went on a bicycle ride that took them past the Girl Scout camp and almost to Camp Gillespie. Some peddlin .

Clarabelle, Clair and Jackie went to town Tuesday evening to do Christmas shopping. Jackie said that they walked all over San Diego and that was enough.

* * *

Turkey Dinner For Fleet Reserve Families

Fleet Reserve Branch No. 47 will be hosts on Christmas Day to members and their families at a turkey dinner, announced Mrs. Carl Howell, chairman. The dinner will be served at the Parrish Hall in Bostonia.

It is the wish of the organization, states Mrs. Howell, to make Christmas day pleasant for the wives and children of men serving our country on the various battle fronts of the world. They are to be the special guests at the dinner.

* * *

To Spend Christmas In Los Angeles

A pleasant Christmas in anticipated by Mr. and Mrs. Bill Koppel. They are leaving Wednesday to spend the holiday with their children in Los Angeles.

Mr. and Mrs. H. Allen and Miss Lillian Koppel will be their hosts. Their son, Billy, plans to be at the Christmas party and bring two other soldiers from camp to enjoy the celebration.

Mr. and Mrs. Koppel will stay until the following Sunday.

* * *

Kouns Rejoice at Arrival of Baby Girl

Mr. and Mrs. Erman Kouns are the proud parents of a baby girl born Dec. 10 at the Valley hospital in El Cajon. She tipped the scales at 8¼ pounds. The young Miss had two brothers to greet her upon her arrival home. Both Mrs. Kouns and the baby are reported doing well.

* * *

In Curry county, Ore., where shells from a Jap sub landed, 33 school children collected 160,000 pounds of scrap, averaging almost two and one-half tons each.

* * *

Restriction of the production of safety razors, razor blades and straight razors will save upwards of 800 tons of high grade steel.

Yuletide Party By Junior Women

Christmas baskets for the needy were filled at the Junior Woman's club annual holiday party Thursday evening at the club house. Staple goods and Christmas remembrances will help to bring happiness to several Lakeside homes this Yuletide. Mrs. Phyllis Isom and Mrs. Clara Isom were appointed to distribute the baskets.

A festive air was carried out in the holiday decoration with a Christmas tree, snow men, pine cones and Christmas candy. Arrangements were made by hostesses Mmes. Carl Howell, advisor, Lois Ward and Dorothy Sydmore.

Entertainment of games and a pantomime was cleverly staged by several of the members in costumes.

From under the Christmas tree exchange gifts were distributed.

A short business meeting was conducted by president, Mrs. Jaunita Duncan, at which a donation toward the penny milk fund now carried on at the grammar school was voted upon.

Eight members of the club signed to attend the County Board meeting at the Hotel Churchill Jan. 9th. Those included Mmes. Howell, Louise Slack, Jaunita Duncan, Wilma Spurr, Patty Bandy, Phyllis Isom, Clara Isom, and Dorothy Sydmore.

Guests at the meeting included Mrs. Gena Larson, Mrs. Emma Pierce and Miss Berta Kirkpatrick.

* * *

Bomb The Japs With Junk!

Family Xmas Party

Christmas was celebrated a little early this year at the M. C. Woodward home. Mrs. Woodward's mother and sister, Mrs. Agnes Roger and Mrs. Harriett Brock and son David from Pasadena were guests at the family Christmas dinner on Wednesday. They returned to their home the following Friday.
